

BEFORE & AFTER:

A dilapidated shed found new life as Zoë's design studio. As a sometime decorator (in addition to her full-time magazine career), Zoë uses the space to scheme new designs for her clients. It also doubles as a very charming second dining room. A unique light fixture from Serena & Lily hangs above a custom table and chairs. The Roman shade was made from two tablecloths (marigoldliving.com). Bench fabric is from Hobby Lobby.
